Affinity Photo 2 Workspace
with the three most important panels

1 Colour tool panel

in the outer ring you select the colour in the inner triangle you select the shade of the colour

2 Character tool panel

Two controls are important

Here you increase/decrease the Tracking (Space between letters)

Here you increase/decrease the Leading (Space between lines)

Increase Decrease

The three most important panels of Affinity Photo.

These three panels had been drawn into the workspace out of the panels area to the right.

This is for better working.

3 Layers panel

The Layers panel contains all elements you create or import into your document.

Text should be on top Background images on the bottom of the layers. Also the rectangle shape you see to the right.

On bottom of the layers panel you see four icons:

1 Mask Layer
2 Adjustments Layer (contains colour tools)
3 Layer Effects (10 Effects)
4 Live Filters
